Production – Warehouse Associate

Are you a dedicated foodie? Do you have a passion to work with a food manufacturer who is helping people to eat healthy while being easy on the planet at the same time? If you want to work in a rapidly growing Company that is revolutionizing the natural channel by creating healthy meat-free meals, then you may be the person we are looking for!

Gardein, manufacturer and marketer of a new generation of meat alternative food products, is looking for Warehouse Associates to join our growing team.

Our Company is located in Richmond, BC, offers competitive wages and benefits, a modern and secure work environment and the opportunity for personal growth and success based on individual performance.

Job Summary:

The Warehouse Associate plays a role in achieving Company objectives by handling raw materials and finished goods, while maintaining a safe working environment. A Warehouse Associate is responsible for material handling, using an RF gun to process and track inventory, and transporting materials throughout the facility. They are required to work in various areas as assigned, including the cooler and freezer. The Warehouse Associate reports directly to the Warehouse & Logistics Manager.

Key Responsibilities - Warehouse:

- Using an RF gun to perform transactions, including: receiving, put away, transfers, and performing inventory inquiries
- Transporting raw materials, finished goods, and equipment throughout the facility using a forklift, reach truck, dock stocker, or ride-on pallet jack
- Conducting pre-shift inspections on equipment to ensure safe use during the day and communicating any issues to Warehouse Supervisors
- Performing vehicle inspections by checking tires, lights, brakes, and the reefer unit ; driving a 5 ton truck to transfer goods and materials on urban and inter-urban routes
- Maintaining a clean working environment

Key Responsibilities – Material Handling:

- Coordinating and communicating with production to assess the need for raw materials; locating supplies in the warehouse and bringing it to where it is needed
- Informing Warehouse Supervisors of raw material shortages
- Operating an electric pallet jack to transport raw materials and finished goods throughout the warehouse
